DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed over the prior art of record.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Double Patenting

3. Claims 1-12 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-12 of U.S. Patent No.

Art Unit: 2642

6,005,931. Although the conflicting claims are not identical, they are not patentably distinct from each other because routing to destinations instead of workstations and providing a communication link between destinations are pure design choices and would have been obvious even to one ordinary skill in the art at the time of the invention.

Terminal Disclaimer

4. The terminal disclaimer filed on August 3, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,122,360 has been reviewed and is accepted. The terminal disclaimer has been recorded.
